temporarily away from work and record no hours of employment. However, as under the terms of the scheme, they can continue to work or take on other employment, their economic status and number of hours worked may change during the scheme's lifespan. This may affect the reporting of self-employed income.

These statistics should be treated with caution when interpreting them:

Provision of unpaid care

Note that the collection and publication of the annual Occfpational Pension Schemes Survey (OPSS) has ceased. A quarterly publication

Sample design in Great Britain

Within each PSU a sample of addresses was selected. In FYE 2022, the number of addresses selected within each PSU varied according to location and month. This was because in the 2021 to 2022 survey year a substantial sample boost was introduced in October. Between April ±September 2021, 28 addresses were selected per PSU for most regions, in Scotland 38 addresses were selected. During the period October 2021 to March 2022,

Data collection in Nort hern Ireland

Refusals include those œsidents of an address that make contact to refuse to participate and œsidents who eefuse to participate in the survey when contacted by the interviewer, either by telephone or on the doorstep. 7 K R V H Z K R D U H Q ¶ W D Y D L proceed with the interview for other reasons, such as being away throughout the fieldwork period, are not count H G L Q ³ 7 R W D O Q X P E H U R I U H I X V D O V ´ V K

Glossary

This glossary provides a brief explanation for each of the key terms used in the Family Resources Survey (FRS). Further details on these definitions, including full derivations of variables, are available on request from the FRS team at _____.

Adult

All individuals who are aged 16 and over are classified as an adult, unless the individual is defined as a dependent child. All adults in the household are interviewed as part of the FRS.
